

# CITIZENS' ADVISORY COMMITTEE ON MEASURE Z EXPENDITURES

(Advisory Committee will make recommendations to the Humboldt County Board of Supervisors as to expenditure of funds derived from Measure Z.)

## APPLICATION FOR FUNDING

Agency Name: Bridgeville Community Center

Mailing Address: PO Box 3 Bridgeville, CA 95526

Contact Person: Chantal Campbell Title: Executive Director

Telephone: 707-777-1775 E-mail address: Chantal.BCC@gmail.com

1. AMOUNT OF MEASURE Z FUNDING REQUESTED FOR FY 2019-20: \$ 25,000

2. ENTITY TYPE -- Please check appropriate box.

- a. Humboldt County Department
- b. Contract Service Provider to Humboldt County
- c. Local Government Entity
- d. Private Service Provider
- e. Non-Profit Service Provider
- f. Other

RECEIVED  
FEB 21 2019  
CAO

3. Please provide brief description of proposal for which you are seeking funding.

The Bridgeville Community is seeking funding for water tanks reserved only for wildfire protection. We envision these tanks fenced and locked. These tanks will be used only by our local department and CalFire.

4. How are you developing a plan for sustainability, including diversification of funding sources, in order for your proposal to carry on without reliance on future Measure Z funds?

To help maintain the sustainability of these water tanks, we are working with the Bridgeville Fire District and Department and CalFire for sustainability and funding through fire protection grants.

5. If this request is for the continuation, or expansion, of an existing program/service, what is the current source of funding for that program/service?

NOT Relevant

6. If you are awarded *Measure Z* funds, how will you use them to leverage additional grants, contributions, or community support? If we are awarded *Measure Z* funds, we will

be able to explore additional funding from grants sourced from CalFire and Dept of Conservation that both provide grants that fit into our wildfire concerns. We already have Community Support.

7. Will this proposal require new or expanded activity on the part of another entity to be fully functional and effective? If so, please describe.

Yes, with the Fire District and CalFire's involvement, this service will be fully functional & effective.

8. Are there recurring expenses associated to this application, such as personnel costs? Please check yes or no and if so, please detail those expenses.  Yes  No

**ATTACHMENTS—Please include the following with your application**

**Proposal Narrative:** Brief description of your request for *Measure Z* funds – Please explain how it is an essential service or for public safety. (one page maximum)

**Prior Year Results:** If your request is a continuation of a program funded with *Measure Z* in prior fiscal years, please provide the results of implementation. (one page maximum)

**Program Budget**

**I declare under penalty of perjury under the laws of the State of California that the above statements and all attachments are true and correct**

DATE: 2-20-19

For the past three years Bridgeville Community Center has been conducting surveying in the Bridgeville area regarding residents feeling of safety. After compiling the data with the help of consultants, we initiated a Safety Campaign. This Campaign focuses on Highway 36 Road Safety, Social Cohesiveness, and Disaster and Emergency Preparedness. Fire Protection has been a reoccurring and prevalent concern in our community. We are working on educating our residents to be prepared for all disasters, but the dangers we face with regard to fire are increasing as we all have seen in the past years. Working along with our local fire department, CalFire, and OES, we are establishing a more unified emergency preparedness plan in our neighborhoods and for our community as a whole.

Through community meetings and committees we have identified the need for strategic water storage for firefighting as a way to help the community in emergency fire situations. The community is requesting funding for water tanks that would be reserved for wildland fires; potentially in two sites in the Bridgeville area. We are asking for funding for two 5,000 gallon tanks at each site (a total of 4) and some funds for securing and plumbing the tanks as well. With the help of CalFire's Planning Department, input from the Fire Safe Council, and community buy-in, we are working to determine "hot spots" in our area for the proper location of the water tanks. The tanks will be fenced, locked, and will be only used for an emergency wildland fire. CalFire and the Bridgeville Volunteer Fire Department will have access to the water when needed.

It is clearly evident how essential this service is for our geographical area. The growth of wildland fires surrounding our county is growing. Water supply is scarce in our area and the water supply that comes from the CalFire station is not easily accessible and is likely far away from the incident. Having reserved water tanks that can be easily accessed saves lives and can prevent fires from spreading. Please consider our fears and concerns.

For the past three years Bridgville Community Center has been conducting surveys in the Bridgville area regarding the water quality. After compiling the data with the help of consultants, we initiated a Safety Campaign. The Campaign focuses on Highway 30 Road Safety, Social Consciousness, and Disaster and Emergency Preparedness. The Protection has been a recurring and prevalent concern in our community. The awareness of water quality is essential to be prepared for all disasters, during disasters we also will be glad to the state indicating as we have seen in the past years. Working along with our local fire department

and fire, we are establishing a more uniform emergency preparedness plan in our neighborhood and for our community as a whole.

Through community meetings and committees we have identified the need for strategic water storage for firefighting as a way to help the community in emergency situations. The community is requesting funding for water tanks that would be used for wildfire fires, potentially in two sites in the Bridgville area. We are asking for funding for two 5,000 gallon tanks at each site (total of 4) and some funds for securing and plumbing the tanks as well. With the help of Office of Planning Department input from the Fire Station 1, Council and

community, we are working to determine "hot spots" in our area for the proper location of the water tanks. The tanks will be fenced, locked, and will be only used for an emergency.

Without the tanks and the equipment, the Fire Department will have a hard time fighting fires when needed.

It is clearly evident how essential this service is for our geographical area. The growth of the area surrounding our county is growing. Water supply is scarce in our area and the water supply that comes from the Centre Station is not easily accessible and is fairly far away from the location. Having reserve water tanks that can be easily accessed would help and can prevent fires from spreading. Please consider our needs and concerns.
