Miranda Community Services District is requesting funding to remove and replace 8 failed/failing fire hydrants in our community. 6. If you are awarded *Measure Z* funds, how will you use them to leverage additional grants, contributions, or community support?

We will notify the community of the *Measure Z* contribution. So many people in southern Humboldt have ties to Miranda because of the school district, we are certain the entire southern Humboldt Community will be thrilled!

PROPOSAL NARRATIVE

Measure Z Committee

February 19, 2019

Miranda Community Services District provides water, sewer and fire protection services to the residents within the boundaries of our District, and additional fire protection services within a much larger sphere of influence.

The District is responsible for the installation and maintenance of all fire hydrants. Many of the fire hydrants in the District are more than 40 years old. Most of those either do not work at all or do not work properly.

The District has only 150 customers. We have an aging water system and an aging wastewater system that are both requiring major maintenance and upgrades at this time. Budget limitations have been the primary factor in our not being able to replace more of the failing hydrants. In addition, with the collapse of fire protection services surrounding our community up and down the Avenue of the Giants (Weott, Phillipsville, Myers Flat), the District has experienced increased costs for the Miranda fire department who is relied upon to cover those non-responding Districts.

The high school and junior high school are located in Miranda. Any fires in our District could be catastrophic – we sincerely need fully functional and operating fire hydrants.

For this reason, the District is requesting Measure Z funding to replace 8 old fire hydrants in our community.

Thank you for your consideration, our community will be grateful for your support.

Sincerely,

Barbara Ristow

Office Manager
