Oct. 27, 2021

68 New Cases Reported

Humboldt County Public Health reported 68 new COVID-19 cases today, bringing to 9,293 the total number of residents who have tested positive for the virus.

As of Tuesday, Humboldt County Public Health and other local vaccinators have administered a total of 158,334 doses of COVID-19 vaccine. Local vaccination data has been updated on the Humboldt County Data Dashboard (humboldt.gov.org/dashboard). Highlights include:

- Since the last weekly report on Oct. 21, 918 vaccine doses have been administered and 475 additional residents have completed their vaccine series.
- A total of 79,397 residents, or nearly 67% of the vaccine-eligible population age 12 and older, are fully vaccinated.
- Just over 73% of the vaccine-eligible population has received at least one dose.

Based on Centers for Disease Control and Prevention (CDC) guidance, completion of the vaccine series offers the highest protection against severe disease, hospitalization and death. People who remain partially vaccinated, about 5% of Humboldt County residents, are strongly encouraged to complete the vaccination series to achieve full protection.

An advisory committee of the Food and Drug Administration (FDA) voted yesterday to recommend emergency use authorization of the Pfizer vaccine for children aged 5 to 11 years old. An advisory panel for the CDC will meet next week to review and discuss the recommendations. In a news conference today, California Department of Public Health (CDPH) officials said they anticipate rolling out vaccine to this age group as early as next week.

The CDPH has also recommended that all eligible residents who are at increased risk for hospitalization and severe COVID-19 disease should get a Pfizer or Moderna booster at least six months after their second dose. The CDPH also recommended

that adults who received the Johnson & Johnson vaccine should get a booster if it has been two months since their first dose.

The CDPH guidance states that people who are eligible may receive a single dose of any of the available COVID-19 vaccines as a “mix-and-match” booster dose following the completion of a different primary vaccine series. For more information about the state’s booster recommendations and guidance, read the [COVID-19 Vaccine Booster Questions & Answers](#) page.

Boosters are being offered at all Public Health vaccination clinics. Appointments are not required but are recommended due to an increase in demand for additional doses and boosters. Sign up in advance at [MyTurn.ca.gov](#). For instructions in English and Spanish on how to use My Turn, go to [humboldt.gov/VaccineInfo](#).

Vaccines are widely available at local pharmacies. To check the availability of a specific vaccine or booster, visit the [vaccines.gov](#) page, or text a ZIP code to 438829 to locate a nearby pharmacy offering vaccines.

Public Health officials are recommending residents, particularly those who are unvaccinated, to get tested if they are experiencing symptoms or have been in close contact with someone who tested positive for the virus. Testing is available through OptumServe seven days a week at the Wharfinger Building in Eureka and at mobile sites throughout the county most weekdays. For more information about testing, go to [humboldt.gov/covidtestregistration](#).

Due to the increasing use of at-home tests for COVID-19, Public Health recommends residents report positive test results so transmission of the virus in the community can be better identified.

Those with a positive at-home test for COVID-19 should isolate and notify their close contacts to limit the spread of disease. False positive test results are unlikely when an antigen test is used according to the manufacturer’s instructions, according to the CDC’s [antigen testing guidance](#) page. Public Health officials stress that positive at-home test results should be reported to a health care provider or to Public Health if there is no provider.

Individuals who require documentation of test results for employment or travel may get PCR testing through Public Health or their health care providers. PCR follow-up testing for an at-home rapid test is most accurate 24 to 48 hours after an initial at-home positive test. For more information, visit the Humboldt County [Home-Testing FAQ](#), or call the Joint Information Center at 707-441-5000.

The county’s vaccination and testing services are available free of charge. Residents who receive their first or second dose of vaccine at a Public Health office in Eureka, Willow Creek or Garberville can choose a \$25 Renner Petroleum or Coming Attractions Theatres gift card. Incentives are offered on a first-come, first-served basis at those locations only.

See the schedule below for specific vaccination and testing clinic dates, times, locations and available services:

Arcata — Thursday, Oct. 28, 10 a.m. to 4 p.m.

Arcata Veterans Building (1425 J St.)
Pfizer/Johnson & Johnson/Moderna
PCR and rapid testing available

Petrolia — Friday, Oct. 29, 11 a.m. to 1:30 p.m.

Mattole Resource Center (167 Sherman St.)
Pfizer/Johnson & Johnson/Moderna
PCR and rapid testing available

Honeydew — Friday, Oct. 29, 3:15 to 5:15 p.m.

Honeydew Elementary School (1 Wilder Ridge Road)
Pfizer/Johnson & Johnson/Moderna
PCR and rapid testing available

McKinleyville — Saturday, Oct. 30, 11 a.m. to 2 p.m.

Church of the Joyful Healer (1944 Central Ave.)
Pfizer/Johnson & Johnson/Moderna
PCR and rapid testing available

Eureka — Monday, Nov. 1, 9 a.m. to 3:30 p.m. Closed from noon to 1 p.m.

Public Health Main Office (529 I St.)
Pfizer/Johnson & Johnson/Moderna
No testing available
\$25 gift card for those receiving a first or second dose

Willow Creek — Tuesday, Nov. 2, 10 a.m. to 3 p.m. Closed from noon to 1 p.m.

Public Health Office (77 Walnut Way)
Pfizer/Johnson & Johnson/Moderna
PCR and rapid testing available
\$25 gift card for those receiving a first or second dose

Garberville — Wednesday, Nov. 3, 10 a.m. to 3 p.m. Closed from noon to 1 p.m.

Public Health Office (727 Ceder St.)
Pfizer/Johnson & Johnson/Moderna
PCR and rapid testing available
\$25 gift card for those receiving a first or second dose

Pfizer is authorized for those 12 and older, and Moderna and Johnson & Johnson vaccines are authorized for people age 18 and older. County residents age 16 and 17 can receive a vaccination at a Public Health clinic without a parent or guardian

physically present as long as they have a signed consent form. Children under 16 still must be accompanied by their parent or legal guardian.
