news release

Nov. 2, 2021

5 Hospitalizations, 1 New Case Reported

Humboldt County Public Health has reported today five hospitalizations due to COVID-19, including a resident in their 30s, one in their 40s, two in their 60s and one aged 80 or older.

One new case was also reported, and six cases were removed from the case count as they were determined to be from another jurisdiction, previously reported or not a COVID-19 case. The total number of residents who have tested positive for the virus in the county is 9,390.

An advisory panel for the Centers for Disease Control and Prevention (CDC) voted unanimously today to recommend a pediatric dose of the Pfizer vaccine for children ages 5 to 11 years old under the Food and Drug Administration's emergency use authorization issued last week.

The CDC is expected to make a formal recommendation within days. California Department of Public Health (CDPH) officials said the state expects to roll out vaccines to this age group later this week after the review process is complete.

Humboldt County's vaccination and testing services are available free of charge. Those who receive their first or second dose of vaccine at a Public Health office in Eureka, Willow Creek or Garberville can choose a \$25 Renner Petroleum or Coming Attractions Theatres gift card. Incentives are offered on a first-come, first-served basis at those locations only.

Appointments are recommended for most vaccination clinics and required at Public Health Main in Eureka due to an increase in demand for additional doses and boosters. Sign up in advance at [MyTurn.ca.gov](https://myturn.ca.gov).

See the schedule below for specific vaccination and testing clinic dates, times, locations and available services:

Garberville — Wednesday, Nov. 3, 10 a.m. to 3 p.m. Closed from noon to 1 p.m.

Public Health Office (77 Walnut Way)
Pfizer/Johnson & Johnson/Moderna
PCR and rapid testing available
\$25 gift card for those receiving a first or second dose

Vaccines, including boosters, are widely available at local pharmacies. To check the availability of a specific vaccine or booster, visit the vaccines.gov page, or text a ZIP code to 438829 to locate a nearby pharmacy offering vaccines.

CDPH has recommended that all eligible residents be vaccinated against COVID-19. Those who are at increased risk for hospitalization and severe COVID-19 disease should get a Pfizer or Moderna booster at least six months after their second dose. CDPH also recommended that adults who received the Johnson & Johnson vaccine get a booster if it has been two months since their first dose. For more information about the state's booster recommendations and guidance, read the [COVID-19 Vaccine Booster Questions & Answers](#) page.

Pfizer is currently authorized for those 12 and older, and Moderna and Johnson & Johnson vaccines are authorized for people age 18 and older. County residents age 16 and 17 can receive a vaccination at a Public Health clinic without a parent or guardian physically present as long as they have a signed consent form. Children under 16 still must be accompanied by their parent or legal guardian.

Phone lines in the COVID-19 Call Center (1-707-441-5000) have been restored. English and Spanish speaking call takers are available to answer questions related to COVID-19 vaccination, testing and preventative measures.
