Feb. 17, 2022

### 2 New Hospitalizations, 90 New Cases

Humboldt County Public Health reported today two new hospitalizations due to COVID-19, a resident in their 60s and another aged 80 or older. An additional 90 new positive cases of COVID-19 were also reported, bringing the total number of confirmed cases in the county to 19,054. No fatalities were reported.

California's statewide indoor mask mandate for vaccinated individuals has expired, and the local indoor mask order was rescinded as well. With no local mask order in place, Humboldt County now falls under the state's mandate that requires unvaccinated individuals to continue to wear masks indoors in public settings. The complete order can be read at the California Department of Public Health's (CDPH) [Guidance for the Use of Face Masks](#). Workplaces will continue to follow the [COVID-19 prevention standards](#) set by CalOSHA.

Residents, particularly those who are unvaccinated, are urged to continue to take protective measures against COVID-19 by washing hands frequently, [wearing a well-fitted mask](#) approved by the CDC and avoiding crowds and poorly ventilated spaces.

CDPH recommends individuals stay home and away from others and get tested if they become sick or experience COVID-19 symptoms. These symptoms may include fever, cough, shortness of breath, fatigue or muscle aches and often mimic common cold or flu illnesses.

Vaccines remain readily available and, as always, Humboldt County's vaccination and testing services are available free of charge. While walk-ins are allowed at all Public Health clinics and some pharmacy vaccination sites, appointments are recommended for all vaccinations and are the best way to ensure a shot is available during your visit. Appointments can be made at [MyTurn.ca.gov](#).

Vaccines, including boosters, are available at local pharmacies. To check the availability of a specific vaccine, visit the [vaccines.gov](https://www.vaccines.gov) page, or text your ZIP code to 438829 to locate a nearby pharmacy offering vaccines.

See the schedule below for specific Public Health vaccination and testing clinic dates, times, locations and available services. Questions about clinic services can be directed to the Joint Information Center at 1-707-441-5000.
