news release

Feb. 22, 2022

1 New Hospitalization, 262 New Cases Since Friday

Humboldt County Public Health reported today one new hospitalization of a resident aged 80 or older due to COVID-19. An additional 262 new positive cases were also reported since Friday, bringing the total number of confirmed cases in the county to 19,382. No fatalities were reported.

Residents, particularly those who are unvaccinated, are urged to continue to take protective measures against COVID-19 by washing hands frequently, socially distancing, [wearing a well-fitted mask](#) approved by the Centers for Disease Control and Prevention and avoiding crowds and poorly ventilated spaces.

CDPH recommends individuals stay home and away from others and get tested if they become sick or experience COVID-19 symptoms that may include fever, cough, shortness of breath, fatigue or muscle aches.

Vaccines remain readily available and, as always, Humboldt County's vaccination and testing services are available free of charge. While walk-ins are allowed at all Public Health clinics and some pharmacy vaccination sites, appointments are recommended for all vaccinations and are the best way to ensure a shot is available during your visit. Appointments can be made at [MyTurn.ca.gov](https://myturn.ca.gov).

Vaccines, including boosters, are available at local pharmacies. To check the availability of a specific vaccine, visit the vaccines.gov page, or text your ZIP code to 438829 to locate a nearby pharmacy offering vaccines.

See the schedule below for specific Public Health vaccination and testing clinic dates, times, locations and available services. Questions about clinic services can be directed to the Joint Information Center at 1-707-441-5000.
