Social Services | Public Health | Behavioral Health

## news release

---

Feb. 23, 2022

### MHSA presentation scheduled for Friday

Interested in learning what people have to say about how Mental Health Services Act (MHSA) funding can benefit our community?

On Friday, Feb. 25, there will be a presentation from noon to 1 p.m. detailing the MHSA Community Program Planning Process that has taken place over the past three years.

In 2004, California voters approved Proposition 63, or MHSA, which placed a 1 percent tax on personal incomes in excess of \$1 million. This revenue is used to develop and support local mental health programs for children, youth, adults and older adults.

The presentation will include a summary of the input recently gathered for the 2022-2023 Annual Update as well as the input for the 2021-2022 Annual Update and the 2020-2023 Three Year Plan.

To attend the Zoom meeting, go to:
