Subject: Central Ave Town Center-oppose

Dear members of MMAC and County of Humboldt;
I am writing today to strongly oppose any change in configuration or traffic flow of Central Avenue. There is no benefit to changing Central Avenue to one lane besides to appease a small group of individuals. Bottlenecking down Central Avenue will adversely affect traffic flow By backing up traffic into already narrow driveway approaches Into businesses and other properties along Central. If you have ever driven through Central Avenue at closing time and opening time there appears to be more traffic than the road can handle already. There are no side streets especially on the east side of Central Avenue they will allow traffic volumes to bypass the proposed town center area if they choose to do so.
