Subject: Follow-Up Comment for McKinleyville Municipal Advisory Committee

Dear MMAC Members,

I live in McKinleyville and I am thrilled about the McKinleyville Town Center Plan. I am writing to show my support and highly encourage you to make the town center as walkable and bike friendly as possible! I specifically want to support the "Walk/Bike Alternative" plan. My partner and I love walking and biking around town, and would like to see McKinleyville even more walk/bike friendly. My sister and her husband and daughter who live in McKinleyville feel the same way, along with many of our close friends. We all want a bike-friendly and pedestrian-friendly town in which to raise our families. Making the town center pedestrian and bike friendly will continue to foster a strong and healthy community here.

In conjunction with the "Walk/Bike Alternative," we support the Road Diet on Central Ave by the town center. This will help make crossing Central Ave much easier for cyclists and pedestrians around the Town Center and ensure that it is safe for families.

Thank you for considering the "Walk/Bike Alternative" plan for the Town Center. I am in full support of trying this plan temporarily as well, to give the citizens who may be hesitant a chance to do a "test-run."

Best,
Tamara
