Catastrophic illness or injury is further defined as a debilitating illness or injury of an employee's spouse, domestic partner, son or daughter that results in the employee being required to take time off from work for an extended period to care for the family member, when this creates a financial hardship because the employee has exhausted all of his/her accumulated paid leave time. Compensation Increase for Added Workload/Staffing/Program Responsibilities

Should a department head have a significant increase in regular employee staffing levels; and/or workload due to increased overall number of County employees; and/or added defined or separate programs increasing their individual department responsibility, they shall be eligible for added compensation utilizing the following criteria:
