Subject: Town Center Comments for McKinleyville Municipal Advisory Committee

Caution: This email was sent from an EXTERNAL source. Please take care when clicking links or opening attachments.

Hello,

I am writing to thank you for taking steps to make the McKinleyville Town Center a more vibrant place to live, work, and play. I support how MMAC has committed to focus on density, housing, and non-car transportation.

I am currently in a local household with two adults and only one car. As things are designed today, I do not feel safe biking and walking in McKinleyville. I urge you to do even more to make this ordinance pedestrian and bike-friendly. Specifically, I urge you to:

1. Please commit to redesigning Central Avenue to make it safer and easier to navigate for bikers and pedestrians. This means narrowing it and redesigning it.
2. Please place less emphasis on parking by removing minimum requirements. This can open up spaces for other uses and help shift the norms around car-centric development.

Thanks,
Lulu Mickelson
