

**Question:** Would you consider [X location] near Humboldt County?

**Response:** RFQ Section 9.0, “Evaluation Criteria and Review Process” specifies the following as one of four categories to be evaluated (10 points out of 100 possible points):

*“Location – 10 points: The Consultant’s ability to provide capable, competent and experienced staff from offices located in or near Humboldt County.”*

**This criteria is concerned with the availability of “capable, competent and experienced staff” to be able to respond in-person to investigate, and assist in resolution of site issues during construction within a reasonable amount of time. The intent is not to have a disengaged consultant with little authority or expertise on the work to be stationed to sit in County during the course of construction work.**

**The RFQ Evaluation Committee members will individually assess the SOQ responses and make their own scoring determinations on which teams are “near” Humboldt County and best able to meet the intent.**
