

The mission of the Humboldt County Department of Agriculture / Sealer of Weights & Measures is to protect the county's agricultural industry, as well as protecting human health and the environment through various regulatory programs.

Hosted by the Humboldt County Department of Agriculture

2024 PESTICIDE FIELDWORKER TRAINING

This free training is designed to help farms who use pesticides comply with the annual fieldworker training requirement. A fieldworker is anyone working in an area where pesticides have been applied within the last 30 days. Attendees will receive a Fieldworker Verification Card upon completion of the training.

This training has been approved for 1.5 hours CE by the Department of Pesticide Regulation.
