

Humboldt County Fire Safe Council Meeting Materials

For the meeting of May 15, 2025

Agenda Item 4. Consent Agenda

- *Consent Agenda Project Descriptions and Maps*
 - Project descriptions and maps are provided for proposed updates to the CWPP GIS database of projects.
 - Reminder:
 - The HCFSC maintains a [CWPP WebGIS Database](#) of projects intended to be a "living" component of the CWPP. Keeping it updated enables project planning among partners across the county and allows projects to be referenced in requests for funding. The [HCFSC Project Input and Update Process](#) describes how projects are added and by whom.
 - Once a motion has been made to approve items on the Consent Agenda, any voting member may ask that a project proposal be pulled for further discussion. Staff, with support from the proposer group (if present), will provide further detail about the proposal and a separate vote will be held for that item.
