			COMMENTS: C. Faust supported the proposed wording revisions for A.		
		D	To actively protect and conserve timberlands for long-term economic utilization and to actively enhance and increase county timber production capabilities.		D
A	B		FR-G4. Incompatible and Conflicting Uses. Forest lands protected from land uses that are incompatible or conflict with their primary use.		R Split Vote 4-2
			COMMENTS: 4-08-10: There was a majority of Commissioners that supported the A/B version of FR-G4 and two Commissioners supporting the C version (Commissioners Emad, Faust, Gearheart and Krebs).		
		C	FR-G4. Incompatible and Conflicting Uses. Forest lands protected from the encroachment of incompatible uses and managed for the inclusion of compatible uses to maximize overall property values.		D Split Vote 4-2
			COMMENTS: 4-08-10: Minority support of FR-G4 by Commissioners Smith and Mayo.		
A	B	C	FR-G5. Infrastructure. A public road system maintained for transportation of logs to mills and forest products to market. and <u>Sufficient inventory of industrially zoned</u> property to support forest products manufacturing. Wildland fire protection that prevents the loss of timber on private property.		M

	D		2721.3. Density Range: The density is established through zoning to allow for minimum parcel sizes of 160 acres to 20 acres. The following findings must be made in determining appropriate parcel sizes less than 160 acres. A. <u>Zoning</u> to a minimum parcel size of forty (40) acres is based on the findings that 1. It shall not significantly detract from the use of the property for, or inhibit, growing and harvesting of timber; and 2. It shall not inhibit economically viable agricultural and timber production on adjoining lands; and 3. Uses and parcel sizes in the adjoining area are compatible; and 4. It is consistent with a comprehensive view of all relevant plan policies. B. Zoning to a minimum parcel size of twenty (20) acres is based on the findings in 3(A) above and that:		D

			Values. Develop incentives for property owners and forestland managers to encourage continued timber production <u>and ecosystem values</u> on forestlands. Support <u>programs that</u> and provide technical assistance to small timber producers working to maintain timber production on lands also used as their primary residence.		
			COMMENTS: 6-10-10: Commissioner Gearheart requested that the phrase “and ecosystem value” be inserted in the first sentence and the title. Chair Smith requested the alternative wording provided by the Resource Lands Working Group be retained. Commissioner Nelson questioned the definition of “incentives” and was concerned that the County was initiating a incentive program that was overlapping with other agencies. After much discussion, the Commissioners unanimously recommended the changes requested by C. Gearheart and Chair Smith (Emad, Gearheart, Smith, Kreb and Nelson).

Work to achieve consistency between County policies and regulations and applicable conservation programs including conservation easement taxing policies.		M Split Vote 3-2
			COMMENTS: 6-10-10: Chair Smith requested the addition of the word “voluntary” in the title as recommended by the Resource Lands Working Group. Commissioners Emad, Smith, and Nelson supported this modification and Commissioners Gearheart and Kreb recommended the staff proposed version. The modification was made on a vote of 3-2.		
A			FR-IM3. Support and Manage Timber Conservation Programs. Support local land trusts and conservation organizations in efforts to maximize conservation and production values from timberlands. Work to achieve consistency between County policies and regulations and applicable conservation programs including conservation easement taxing policies.
