

Dear Planning Commissioners,

I am joining Healthy Humboldt to ask for your help in preserving our county's forests, parks, agricultural lands, and watersheds. I will support you in maintaining the land zoning designations and building requirements that will prevent the loss of our rural landscape to residential sprawl.

In the initial scoping meetings, 76% of citizen comments supported focusing new development into vibrant town centers and preserving our farms, working forests and healthy rivers for a healthy economy and our children's enjoyment. Please do not permit private interest groups to thwart this clear public mandate.

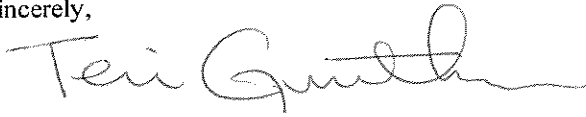

Plan Alternative A of the General Plan Update will maximize our use of existing infrastructure and services and promote public health through cleaner air and more opportunities for active living.

Plan Alternative A will save money for families and taxpayers, supporting a stronger local economy and helping more of our neighbors afford the food and housing that we all deserve.

I am asking you to work with us to meet the state's growth requirements in a way that offers healthy amenities and choices to more families while protecting Humboldt's ecological health.

I am also asking you to support mandatory inclusionary zoning policies to ensure that sufficient affordable housing is produced for Humboldt's working families. Access to housing is a human right and should not be left to the "market" which has demonstrably failed our community in the past.

Sincerely,

TERI GRUNTHAMER
1710 Stewart Ave.

Dear Planning Commissioners,

I am joining Healthy Humboldt to ask for your help in preserving our county's forests, parks, agricultural lands, and watersheds. I will support you in maintaining the land zoning designations and building requirements that will prevent the loss of our rural landscape to residential sprawl.

In the initial scoping meetings, 76% of citizen comments supported focusing new development into vibrant town centers and preserving our farms, working forests and healthy rivers for a healthy economy and our children's enjoyment. Please do not permit private interest groups to thwart this clear public mandate.

Plan Alternative A of the General Plan Update will maximize our use of existing infrastructure and services and promote public health through cleaner air and more opportunities for active living.

Plan Alternative A will save money for families and taxpayers, supporting a stronger local economy and helping more of our neighbors afford the food and housing that we all deserve.

I am asking you to work with us to meet the state's growth requirements in a way that offers healthy amenities and choices to more families while protecting Humboldt's ecological health.

I am also asking you to support mandatory inclusionary zoning policies to ensure that sufficient affordable housing is produced for Humboldt's working families. Access to housing is a human right and should not be left to the "market" which has demonstrably failed our community in the past.

Sincerely,
