

Dear Planning Commission and staff,

Healthy Humboldt supports focusing most future development into existing towns to protect resource lands, enhance vibrant, walkable communities, and strengthen our local economy. We encourage the adoption of a Land Use Element that:

- Maintains the timber and ag jobs that have historically formed the backbone of our economy.
- Protects timber and ag lands, clean water, and scenic values.
- Promotes local farmers and the food they produce.
- Benefits the salmon and other wildlife.
- Reduces traffic, commute times, and greenhouse gas emissions from cars.
- Plans for housing opportunities close to work, school, and parks.

Additional comments:

I Support Alternative A  
Stop sprawling development -  
Save Ag. Land.  
more bike trails  
walkable neighborhoods.  
more Apartment Affordable housing.

- Maintains the timber and ag jobs that have historically formed the backbone of our economy.
- Protects timber and ag lands, clean water, and scenic values.
- Promotes local farmers and the food they produce.
- Benefits the salmon and other wildlife.
- Reduces traffic, commute times, and greenhouse gas emissions from cars.
- Plans for housing opportunities close to work, school, and parks.

Additional comments:

Monitors: Fragmented lands need harvest, grazing + development  
Reduce rate of timber harvest on Key Watersheds  
County rule must overrule CDF THP Forest  
practices. County must promote a no-  
clear-cut policy, protect forests and  
promote healthy stream habitat + recreation  
by creating more trail systems, river  
access and preserves.

Just like Santa Cruz County

- Reduces traffic, commute times, and greenhouse gas emissions from cars.
- Plans for housing opportunities close to work, school, and parks.

Additional comments:

I live in Scotia and love to ride bikes recreationally. However, there are not many places that I feel I can safely ride to from Scotia, without getting on the freeway. I would like a bike trail from Scotia to Eureka to be developed, so many people can appreciate the rugged beauty of their surroundings without cars whizzing by at 70 mph. Thanks

- Benefits the salmon and other wildlife.
- Reduces traffic, commute times, and greenhouse gas emissions from cars.
- Plans for housing opportunities close to work, school, and parks.

Additional comments:

*Please support Alternative A. It will be a great step forward to have a real zoning and housing plan for the entire county.*

Multiple horizontal lines for additional comments.

- Reduces traffic, commute times, and greenhouse gas emissions from cars.
- Plans for housing opportunities close to work, school, and parks.

Additional comments:

I'm a local mom, and I would like to see more public transportation and complete streets in Eureka and surrounding areas. I am in support of alternative A. Please take all of this into consideration. Thank you. Levia Bishop

Healthy Humboldt supports focusing most future development into existing towns to protect resource lands, enhance vibrant, walkable communities, and strengthen our local economy. We encourage the adoption of a Land Use Element that:

- Maintains the timber and ag jobs that have historically formed the backbone of our economy.
- Protects timber and ag lands, clean water, and scenic values.
- Promotes local farmers and the food they produce.
- Benefits the salmon and other wildlife.
- Reduces traffic, commute times, and greenhouse gas emissions from cars.
- Plans for housing opportunities close to work, school, and parks.

Additional comments:

Protecting groundwater resources for recharge rates and long term sustainability, and reduce the net loss of fresh water supplies in Humboldt County; those are important issues that need to be addressed in the General Plan. No export of groundwater needs to be incorporated into the GPU policy Framework

- Plans for housing opportunities close to work, school, and parks.

## Additional comments:

I've lived Humboldt City since 1978 - I've milked cows & worked with local farmers - I choose to live in McKinleyville for its more rural atmosphere & work at a business with strong rural backgrounds & traditions. I own horses & would love to see more trails for multi use & less land being developed for building. I shop local small businesses when ever possible. I think that the small business is the strength of the community. Bigger is not better, definitely less healthy for people & the environment. Thanks for your work to encourage this!
