Re: Healthy Humboldt's Comments on Growth Management and Urban Lands Sections of the Land Use Element of the General Plan

Dear Planning Commissioners,

I understand that your Planning Commission will be finishing its deliberations on the Growth Management (Sec. 4.2) and Urban Lands Sections (Sec. 4.3) of the Land Use Element and intends to move directly to discussion without further public testimony at your meeting of October 22, 2009.

Therefore, I write to remind you that Healthy Humboldt sent a comment letter on these sections to you on July 7, 2009. (The reminder is, of course, due to the length of time since the letter was sent and the voluminous amounts of materials that you receive.)

I hope you will take the time to re-read those comments which include detailed language recommendations using the format of the "Plan Alternatives – Key Issues and Comparisons" chart.

You should have a hard copy of the comment letter and attachment in your July 8th or 15th meeting packet. If not easily accessible there, the letter is on the county website as GPU comment 72 which can be found at <http://co.humboldt.ca.us/gpu/documentsDraftPlanPC.aspx>.

Thank you for considering these comments and all the work you do for the community.

Sincerely

Elizabeth Conner

Elizabeth Conner
Healthy Humboldt Coalition

Healthy Humboldt is a coalition of public interest groups working for a county General Plan that provides healthy transportation and housing choices while protecting resource lands and watersheds by focusing future growth in existing communities.
