

April 3, 2010

Dear Planning Commissioner -

As a long time native of Humboldt County and recent graduate of U.C. ~~Berk~~ Berkeley, I have returned to Humboldt County because of its opportunity for individuals to live sustainably, to grow their own food and to build healthy communities.

I believe that what makes Humboldt County valuable is its priority of food & cultivation space & I think it's vitally important to our future success as a county & to our survival that we ~~per~~ continue to prioritize land for farming.

Thank you, Suzanne
