Re: Complete Streets Working Group Comments on the Circulation Element

Dear Commissioners,

The Area 1 Agency on Aging Advisory Council supports the Complete Streets Working Group Comments on the Circulation Element.

While the comments from the Complete Streets working group, if incorporated into the Circulation Element, will positively impact seniors, those comments are not specific to the needs of senior citizens. Our purview is to advocate for policies which support a senior's ability to remain active, healthy, and independent in the community -- transportation and mobility are key to this support structure. We support the development and maintenance of sidewalks, roadways and the mixed-used planning of communities which allow seniors to safely move about their communities via walking, wheelchairs, motorized carts, vehicles, para-transit, and public transit.

Sincerely,

Lisa Naef  
Chair, Transportation Committee  
Advisory Council of the Area 1 Agency on Aging
