I am unable to attend tonight's meeting since it was rescheduled. I do not appreciate having only 48 hour notice of a meeting. I want to say that I am very disappointed in the way the Planning Commission has been stacked in favor of wealthy developers. Please remember that you should be representing all Humboldt County citizens, not just those wishing to make money off of building, developing, and real estate. Specifically, I want to express my support for public trails. This is the kind of thing that makes it pleasant to live here, not more structures, malls, etc. I would also like to express my support for removing all Billboards. They're ugly, just get rid of them already.  
Sincerely,  
Beverly Filip
