**Subject:** County General Plan Update

My name is Charis Arlett, I own a home in Eureka and have lived here in Humboldt 25.5 yrs. I moved here for the special qualities Humboldt county has and feel we need to work at protecting and improving these. The goal for a county-wide trail system needs to be replaced in the Open Space Element of the County General Plan update. We need to support land acquisition for community forests and strengthen (not weaken) those policies protecting forests, farms & open spaces for our health, the economy and future generations.
