Cell Tower locations and other information were obtained from the Federal Communications Commission's website: <http://www.fcc.gov>. The Wireless Telecommunications Bureau of the FCC provides the Universal Licensing System (ULS) public access files. The Cellular - 47 CFR Part 22 downloads provide locational information for cell tower facilities and applications for the entire U.S.

Files downloaded from the website were updated on 3-10-02.

An article in October, April-June 2001 edition titled "Local Cell Towers in Your County" by Steve Tompkins provided many of the processing steps for using the FCC locational database.

Other information regarding Cellular Cellular Sites was obtained by contact with Cellular Cellular. Other sites were added Jan 2003.

This map is intended for display purposes only and should not be used for precise measurement or navigation. Data has not been completely checked for accuracy.
