Subject: GPU item

Hi Estelle,

Hope you are doing well.

I just want to make sure this item makes it on the GPU agenda.

Planning Process Evaluation GP-SXI Evaluation of Planning Process

The PPWG has advocated for development of a procedure for evaluating the general plan process that involves the general public. On March 24, 2014 the Board reviewed. then voted to neuter our proposed evaluation provision to read, "Provide evaluation forms in paper and/or electronic format for input on special meetings and workshops."

PPWG RECOMMENDS: At a minimum GP-SXI Evaluation of Planning Process should provide evaluation forms in both paper and electronic formats, and all forms shall be collected, scanned in and posted on the county web site with the electronically submitted input.

Previously submitted proposal:

~ Establish a standard set of procedural criteria for evaluating the general plan process that involves the general public.

Such criteria should include but not be limited to the following:

- A. Evaluation forms shall be available at all levels when conducting general plan special meetings and public workshops and utilize a 1 to 10 rating system from Poor to Excellent.
- B. The evaluation forms should provide for identification of the specific meeting or hearing subject, place and time.
- c. The evaluation forms should contain a space inviting suggestions for improving the process.
- D. The evaluation forms should contain contact information of the presenter(s) or moderator(s), if applicable
- E. The evaluation forms shall be available on the web site and those submitted from each meeting shall be collected and scanned in and posted on the web site, to be made available to the public and be provided to the Planning Commission and the Board of Supervisors.

Thanks,

Bonnie Blackberry
