**Subject:** RE: GDRCo land use comments layer

Hi Rob, John and Jerry,

I reviewed Green Diamond requested land use changes and compared it to what was recently updated in the Humboldt County Web GIS application, under BOS Recommendation. I have found a few discrepancies that we would like to request be updated to reflect the accepted changes. I have included maps which are snapshots of the BOS recommendation Land Use, taken from Humboldt County Web GIS. I am also including a shapefile with those discrepancies and parcel id. The accepted change will be in the GreenDiamo column vs. what is currently shown (in the BOS column). Please let me know if you had any questions regarding the requested updates.

Thank you,

**Subject:** GDRCo land use comments layer

Hi Rob and John,

Here is a layer containing the BOS/GDRCo proposed land use for the 27 parcels Green Diamond had comments on. Below is a snapshot of the attribute table for the layer. The ParcelID should match the notices that we received, however for those parcels that have changed shape and number, I put the new APNs in the Comments sections.

BOS = County Proposed Land Use  
 Green Diamond LU = Green Diamond Proposed Land Use  
 Agree or Comment= where we separate out the areas that we have comments on. (within the layer, the commented areas are shown in red)
