# What is the Housing Element?

The Housing Element :

- It's one of the 8 mandatory elements of the General Plan
- Provides a roadmap for residential development in the unincorporated areas of the county
  - *It proposes policies and programs to facilitate residential construction but it doesn't build houses.*
- Regular updates; the planning horizon for this housing element extends to 2027.

Housing elements are required to have the following four components:

- Housing needs
- Site inventory and analysis
- Constraints analysis
- Program requirements

# What's new with housing laws?

- Allowances for Accessory Dwelling Units

# Topics Related to Housing

We are seeking public input on several housing topics being considered. Some of these topics are in response State law mandates, and some spring from recognized unmet housing needs.

All are open to public discussion and comment...

# Topics Related to Housing

1. New allowances for Accessory Dwelling Units (ADUs).
2. Facilitate and fund development of [Emergency Shelters](#) on parcels previously zoned for them.
3. Facilitate and fund the development of [transitional and supportive housing](#).
4. Allowances for more [Farm Employee Housing](#).
5. New allowances for [Tiny Houses](#).

# Tiny Houses

Tiny Houses straddle the classifications for conventional homes and RVs.

The county proposes to allow moveable tiny houses outside parks, subject to zoning, building, and health & safety regulations, just like conventional homes.

# How are conventional homes, RVs, manufactured homes, and Tiny Houses classified and regulated now?

Dwelling Type	Characteristics	Size	Standards	Locations if used as permanent housing
<b>Conventional home</b>	Stick built, on foundation	Full size	California building code	Single family and some other zones
<b>Factory-built home</b>	Built offsite, set up foundation	Full size	California building code	Single family and some other zones
<b>Manufactured home</b>	Built offsite, set up foundation or in park	Full size	Manufactured Home Construction and Safety Standards (Fed)	Single family if on foundation; mobilehome parks if not
<b>Recreational vehicle</b>	On wheels	Small	ANSI 119.2, 119.5	mobilehome park or special occupancy park
<b>(Moveable) Tiny House</b>	Sits on foundation or on wheels	Small	ANSI 119.2, 119.5, and/or alternative	mobilehome park or special occupancy park

# Discussion and Brainstorming

- What are the needs? Are there needs not being captured?
- What housing policies and programs are working? What is not working?
- Ideas for solutions? How do we get more housing built?

**2019 Housing Element**

Welcome to Humboldt County's Housing Element Update page. It is intended to inform people, and invite community input about current and future housing in the unincorporated parts of the county.

**What is it?**

The state requires cities and counties to have Housing Elements as part of their general plans. The Housing Element identifies existing and projected housing needs and establishes goals, policies, standards and implementation measures for the preservation, improvement, and development of housing in the unincorporated areas of the county. Humboldt County's Housing Element was last updated in 2014. The planning horizon for this Element extends to 2027; it must be updated by August 15, 2019 per state requirements.

## 2019 Housing Element

Welcome to Humboldt County's Housing Element Update page. It is intended to inform people, and invite community input about current and future housing in the unincorporated parts of the county.

### What is it?

The state requires cities and counties to have Housing Elements as part of their general plans. The Housing Element identifies existing and projected housing needs and establishes goals, policies, standards and implementation measures for the preservation, improvement, and development of housing in the unincorporated areas of the county. Humboldt County's Housing Element was last updated in 2014. The planning horizon for this Element extends to 2027; it must be updated by August 15, 2019 per state requirements.

### What is the Update Schedule?

Because California requires that Housing Elements be certified for compliance by the California Department of Housing and Community Development (HCD), the County's process will follow this schedule.

Planning Activity	Timeline
Topics of interest, policies and implementation measures on the web	End January 2019
Public Workshops	Late February to early March 2019
Release of CEQA document	Late March to early April 2019
