Key Policy Topics

Improve Access to Expertise

Remove Governmental Constraints

Accessory Dwelling Units

Tiny Houses and Moveable Tiny Houses

Incentives for Residential Development

Improve Access to Expertise

H-P27. Technical Assistance Program. The County shall develop a residential development technical assistance program to improve public engagement, outreach and availability of information and expertise regarding residential land use regulations and the residential development permitting process.

H-P28. Pre-Approved Housing Plans. The County shall increase the variety of housing designs available in the pre-approved housing plan inventory to encourage the production of affordable housing.

Remove Governmental Constraints and Improve Accountability

H-S14. Fast Track Application Review and Timelines. All housing projects shall be fast-tracked, and establish deadlines for County action

H-IM34. Audit the Planning and Building Department's Residential Development Permit Processes and Procedures. The audit is to include obtaining input from the lay- and the professional residential development community The outcome objective of the audit shall be to reduce processing times, increase the number of entitlement applications that result in issued permits, and improved customer satisfaction.

H-P29. Streamline Housing Review and Approval by adopting objective standards for residential land use regulations to improve the clarity and predictability for both the community and developers.

Accessory Dwelling Units

H-P30. Encourage Accessory Dwelling Units. The County shall stimulate the construction of accessory dwelling units by relaxing accessory dwelling unit development standards through modifications to the land use codes in order to provide low-cost housing and to make more efficient use of existing roads.

H-IM42. Work with California Coastal Commission to allow accessory dwelling units located in specific areas to not require a Coastal Development Permit.

H-IM44. Incentivize ADU Development. The County shall develop a pilot program whereby the County partners with a lender to incentivize the development of ADUs in Housing Opportunity Zones by providing financial assistance to income eligible homeowners to facilitate the development of ADUs.

Tiny Houses and Moveable Tiny Houses

H-P31. Allowance for Tiny Houses and Moveable Tiny Houses. The County shall improve housing amending the Zoning Regulations to allow tiny houses and moveable tiny houses as permanent single-family dwellings, and specify development standards to protect public health and safety.

H-IM46. Accounting for Tiny Houses and Tiny House Villages in the Regional Housing Needs Assessment. The County shall work with the State Housing and Community Development (HCD) to develop an appropriate method to count tiny houses and tiny house villages as dwelling units for the Regional Housing Needs Assessment.

Incentives for Residential Development

H-P44. Funding for Supportive and Transitional Housing. The County shall actively seek to obtain funding from other sources to intentionally partner with developers and landowners to develop Supportive and Transitional housing.

H-IM61. Establish a Mixed Housing Zoning District. The County shall amend the Zoning Regulations to add a principal zoning district to be applied within Housing Opportunity Zones that allows higher residential densities and flexible housing configurations that address workforce housing needs. The new Mixed Housing Zone shall include development standards that align with community character and priorities established through a community plan update process.

Proposed policies & implementation where there is uncertainty:

Tiny House Villages and Alternative Lodging Park

- Outside the housing formats recognized by HCD
- May not initially be recognized by HCD as progress towards the County's RHNA.

Nonetheless, the improved affordability offered and the unmet needs in the community, staff believes overrides this constraint and warrants inclusion. Should these forms of housing be adopted, the County will work with HCD for recognition of these developments.

2019 Housing Element

Welcome to Humboldt County's Housing Element Update page. It is intended to inform people, and invite community input about current and future housing in the unincorporated parts of the county.

What is it?

The state requires cities and counties to have Housing Elements as part of their general plans. The Housing Element identifies existing and projected housing needs and establishes goals, policies, standards and implementation measures for the preservation, improvement, and development of housing in the unincorporated areas of the county. Humboldt County's Housing Element was last updated in 2014. The planning horizon for this Element extends to 2027; it must be updated by August 15, 2019 per state requirements.

2019 Housing Element

Welcome to Humboldt County's Housing Element Update page. It is intended to inform people, and invite community input about current and future housing in the unincorporated parts of the county.

What is it?

The state requires cities and counties to have Housing Elements as part of their general plans. The Housing Element identifies existing and projected housing needs and establishes goals, policies, standards and implementation measures for the preservation, improvement, and development of housing in the unincorporated areas of the county. Humboldt County's Housing Element was last updated in 2014. The planning horizon for this Element extends to 2027; it must be updated by August 15, 2019 per state requirements.

What is the Update Schedule?

Because California requires that Housing Elements be certified for compliance by the California Department of Housing and Community Development (HCD), the County's process will follow this schedule.
