<input type="checkbox"/> Other:

<input type="checkbox"/> Other:

Informational Notes:

The County may request additional information prior to application intake, or during application processing, where deemed necessary to perform environmental review pursuant to the California Environmental Quality Act (CEQA). All required plans and reports shall be designed to demonstrate compliance with relevant eligibility and siting requirements, and applicable performance standards, while conforming to relevant checklists and guidance documents maintained and supplied by the County. All Technical Reports and Plans are subject to final review and approval by the County.

Pursuant to Humboldt County Code (HCC) Section 312-11.2, "Development permits shall be issued only for a lot that was created in compliance with all applicable state and local subdivision regulations." County staff will be completing this review for your parcel, and it may be necessary for you to submit additional information in order to determine how the property was created in its current configuration. If additional information is needed our office will contact you.

County staff will conduct a review of previous land use actions that have been approved on the subject parcel(s) to ensure that, "The proposed development complies with the terms and conditions of any applicable permit and/or subdivision map that was previously approved for such development" (HCC §312-2.4.1.2). If a relevant project is found and additional information is needed, our office will contact you.
