**Subject:** Bear River Wind project

I am strongly opposed to this project! As a Native American I adamantly oppose the destruction of sacred lands. I do not condone any project that does not singularly benefit the rural area it is being installed in. I'm looking to buy a home in the area and this would discourage me from doing that completely. I have Capital One set up as a lender and ready to go but I have put a hold on this due to these concerns. Humboldt County is already struggling financially and I understand this but the answer is not to Outsource its resources to companies that are going to send the power out of the area. I'm sure this County can come up with better ideas as far as generating Revenue.

I24-1
