Subject: CEQA Comment on Draft EIR for Humboldt Wind Project

Good Day,

I would like my comment noted in the official records for comments. As a local county resident, I am all for a project like this. We keep hearing of how this region needs increased economic development opportunities and this project seems to fit. I would encourage the County to realize the positive effects of clean energy and the amount jobs created for this project which will in turn bring increased spending to local businesses and tax revenues.

I
154-1
I

Thanks and have a great day,
Robert Canepa
