**Subject:** Opposed to Rio Dell Wind Farm

I've lived in Humboldt County for around 23 years and in the Eel River Valley for around 15 years.

I'm writing to share my opinion that I am against this wind project.

Some of the reasons:

- \*The area is special to Native Americans
  - \*It will only create a few local jobs (most of the construction and upkeep is done by out of County and even out of State people).
  - \*Its very unlikely the energy will stay in Humboldt County
  - \*Those ridges are rather unspoiled and in the flight path of all sorts of birds
  - \*Its debatable how "Green" Wind Farms actually are.
- Why not re-explore wave energy and tidal power?

I81-1

Sincerely,  
Patt Sweeney
