Subject: wind project
Date: Saturday, June 08, 2019 10:33:09 AM

A letter to the Editor on this subject says comments must be received by 5 p.m. June 14. I assume that would make my previous request for more information somewhat irrelevant. I believe the lack of public information concerning the involvement of Fields Landing in this project is disrespectful and possibly devious. This will involve a major change to the configuration of our town. A recreational harbor in a residential neighborhood turned into a commercial venture without any adequate notice to the public. All of the focus has been on the turbines and where to put them. How to get them here is a bigger problem. As big as should the freeway be enlarged to allow for wider trucks to get to Humboldt County. I oppose the use of Fields Landing and its harbor for this wind project to be made possible. Letter follows:
thank you Carol Michael p.o. box 1116, Fields Landing, California
