Regarding the the proposed TerraGen wind farm: After attending company sponsored town hall meetings in both Petrolia and Ferndale given by TerraGen representatives and also reading the DEIR, I feel there are too many unanswered questions to permit the project as quickly as the company would like.

TerraGen understandably wants to start the project in time to maximize the tax breaks, but at the Ferndale meeting a spokesperson admitted that they would go ahead with the project even if they missed the December 2020 deadline to get the current tax break and had to settle for the next, reduced, tax incentive. Therefore, the County doesn't have to rush a decision.

Let's wait for the final EIR and clarification of other issues where the information is fuzzy or incomplete.

Regards,

Rob Wiele, Petrolia
