Dear Project Planner,

Dear Planning Director Ford,

Please note the links below which involve technology to mitigate harm from large wind generators.

This one is a sonic technique to help bats avoid the blades:

This one uses AI to prevent raptor deaths: <https://therevelator.org/ai-wind-turbines-birds/>

Please consider having TerraGen use them as part of their permit if the decision is made to allow it.

Thank you, Joseph Ashenbrucker

Sincerely,
