Subject: Please vote NO on the wind turbine project

I live in Rio Dell. I have read about the impact this project will have on our environment, and it is very damaging in many ways.
Also, I am very concerned about the on-going damage from the sound the turbines generate. (Even if people can't hear all the sound, it will still be damaging the environment, wildlife, etc)
I am also very concerned because it was 'fast tracked' just so some company (not local, even) would be able to get the project done before losing expiring government discounts.
PLEASE VOTE NO on this!!!

I121-1

Protect us and our area!

Thank you.
Katherine R. Edwards
