I have gotten a very informative e-mail from Steven Werner which answers some of my questions.

But his explanation doesn't provide a reason for the alternatives to Fields Landing such as the use of existing commercial harbors in and around Eureka.

I would ask that you come and look at Fields Landing Harbor, the beauty of it, the way different species live in harmony here and then ask why disturb this setting when you already have commercial alternatives. There are Harbors and docks all around the bay, in settings that are commercial and industrial and more appropriate.

It is a matter of respect for the critters that share this planet with us. And a need to preserve what has yet to be ruined.

Thank You,
Carol Michael.
