Humboldt Wind Project Planner  
County of Humboldt Planning Dept.  
3015 H St.  
Eureka, Calif. 95501

Dear Planning Commission,

I am sure as members of the County Planning Commission you have been encouraged to consider the many environmental impacts the proposed Wind Energy Project will impose on this uniquely beautiful and diverse area of the County. There are many people who are better informed regarding the California Fully Protected Species Act and the Williamson Act, but it is my understanding that like these were designed to protect and defend our environment.

I am not opposed to wind energy in principle, but compromising an irreplaceable eco-system before a complete review of the Pros and Cons, is not worthy of the trust, we as residents of the County have put in you. We count on you to follow the Science, and do the right thing.

Thank you for your time and attention.
