Subject: Humboldt Wind Project

CEQA ---

The proposed wind power project in Humboldt County would be horrible! The damage to raptors and other wildlife, the scarring of the landscape and the huge pressure on county roads and other infrastructure is not fully known but would have substantial negative impact. The EIR is not fully vetted and leaves a bunch of unanswered questions.

I am a property owner in the Bear River watershed and a resident of Loleta. For a huge variety of reasons this project should be denied.

Thank you for the consideration!
Sincerely,

I158-1

Bill Morrill
