**Subject:** Humboldt Wind Project

A big NO to this destructive project. Any project that kills birds is not viable. The destruction and vast amounts of concrete (the curing causes global warming, it replaces habitat, it creates toxic runoff, etc), the loss of habitat, the overwhelming destruction of beauty, all make this a non-starter. Most important of all is the permanent loss of a rare and beautiful place on earth. There is no amount of so-called "mitigation" that can offset the loss of this place. The only purpose of this project is financial gain for the out-of-town developer. We in Humboldt County are not all suckers. A big huge NO.
