Subject: turbine project

Recently sent the attached letter to the Board of Supervisors and would like to share it with your department.

I am trying to catch up on the information presented. So far I have two concerns.

*What impact will the noise generated by 60 turbines operating 24/7 at 90+dB's have on tourists seeking the peace and quiet of our beautiful communities? I see it as a cumulative impact county wide.

*If it is determined that the property owned is reassessed and there are less taxes generated, what impact would that have on county programs depending on that revenue?

I239-1
