Subject: Humboldt Wind Energy Project

Sirs:

I would like to go on record as opposing the proposed Terra-Gen project on the ridges above Scotia. I feel there are too many unanswered questions the the draft environment statement failed to address. I also feel there are too many potential ecological consequences of such an industrial project in a relatively pristine rural environment. Altogether, these concerns are the reason I am asking that the Humboldt County Planning Department withhold permission allowing the Terra-Gen project to move forward. At the very least, further scrutiny of the draft EIR should be required.

I241-1

Sincerely,
Robert Schultze
Eureka
