Humboldt Wind Project Planner County of Humboldt  
 Planning and Building Department, Planning Division -- [3015 H Street, Eureka](#), CA 95501

Hello, I have read the materials regarding the construction of this massive project and the disruption and destruction of the forest land necessary to prepare for the installation of 60 turbines would be catastrophic for the area. Logging 900 acres primarily of redwood is destroying millions of board feet that would better serve the environment by remaining standing.

Two overpasses to truck materials to sites, and roads 200 feet wide through the area....all vastly changing the area, not for the better.

Viisual blight...60 towers 600 feet vertical will be hugely visible from a distance. The visual blight will destroy the pristine view the proposed area now offers not only in the immediate area, but for other portions of the county as well.

I urge you to consider all aspects of this project and refrain from recommending its approval.

Thank you,  
 Pam Cavanagh
