**Subject:** comment Humboldt Wind Project

Hello,

I am opposed to the wind project. Part of what we appreciate here in Humboldt, is the natural environment we reside in. I have heard enough on mitigated uses for avian strikes from the propellers, that I don't want to think that is something we even have to discuss. We have had enough impact on our environment over the decades here in Humb Co.

Although I like the idea of sustainable energy, this doesn't warrant one co coming in, with such a huge distraction and potential impact. I heard someone speak that 15 jobs would be developed, not all of them could/would be from Humb, but the most qualified. With 17 mi of powerlines to Bridgeville, another detriment.

Please do not allow this entity to come into our beautiful area.

thank you,  
 Denise Marshall
