**Subject:** Comment on Humboldt Wind Energy Project

Dear Project Planner,

Dear Planning Director Ford,

I am very concerned about the proposed wind project from Humboldt Wind, LLC. While climate change is a serious threat to Humboldt County, poorly sited and developed wind projects can cause drastic environmental impacts

My concerns deal with goals set forth in the 2019 Humboldt County Community Wildfire Protection Plan and how this project will adversely affect our ability to meet those goals. Specifically, I call you attention to the goal of "Restoration of Beneficial Fire at a Landscape Scale."

How can the project move forward and, at the same time allow Prescribed Fire within its vast footprint, an area which has evolved over the eons with regular, periodic fire?

Thank you for the opportunity to comment on this very important matter.

Sincerely,  
Peter Marshall

Sincerely,

Peter Marshall
