Hello Trevor

I will concur with Janet and Erika on the standard inadvertent discovery protocol as well.

**Subject:** Re: North McKay Tract Project

Hi Trevor,

Bear River does not request any further consultation for this project, but please do include the standard inadvertent discovery language.

Thanks.

Trevor,

I don't think survey of the water tank site is necessary, low sensitivity and already disturbed by the looks of it. I recommend that work also be conditioned with Inadvertent Archaeological Discovery.

I am fine with no further SB 18 consultation...

HOWEVER, I believe the Wiyot Tribe does have interests in culturally significant plants on the North McKay Tract and I'm forwarding this to their tribal ethnobotanist Adam Canter and THPO/Chair Ted Hernandez to respond to.

I do not know if Bear River has further interests.

Thanks,

**Subject:** North McKay Tract Project

Hi all-

I have inherited the North McKay Tract General Plan Amendment, Rezone and Subdivision project from Michael Wheeler and wanted to check in with you all. I see that initially, consultation was requested per SB18 and Jamie Roscoe did a survey of the site. The attached comments indicate that Blue Lake no longer wished to engage in SB 18 consultation and recommended the inadvertent discovery condition.

One, I wanted to make sure we are all on the same page and two, I wanted to check regarding a potential development outside of the original scope of Jamie's report. There is a possibility of the need for an additional water tank at an existing HCSD site (see attached maps). This would entail some grading and possible tree removal around the periphery, but not disturbance beyond that (i.e. tie in to existing infrastructure). I wanted to get your thoughts on this proposal and any recommendations you may have as it relates to SB18 and AB52.

Thanks for any input you can provide and let me know if you have any questions.

Thanks.
