## Campgrounds, RV Parks Cleared to Begin Reopening Process

Campgrounds and RV parks can now submit a Business Reopening plan and may reopen to visitors following certification by the Humboldt County Emergency Operations Center.

Humboldt County is home to dozens of campgrounds and RV parks, including facilities that are privately operated or run by the county, state or federal government. While private campgrounds and RV parks can reopen as early as Friday, June 12, the vast majority of public campgrounds will not reopen right away. Residents are strongly urged to call before visiting any campground or RV park to confirm it is open for visitors.

- **Private campgrounds and RV parks:** Can reopen with EOC certification. Call ahead to confirm status and availability.

"We've been tracking progression of this virus in our community, and currently our conditions remain favorable," said Humboldt County Health Officer Dr. Teresa Frankovich. "This is a challenging time, and camping with our household members in our beautiful area is a great way to reduce stress. I encourage local families to enjoy themselves while remembering that social distancing and other public health measures are important around other campers."
