Thousands of Vaccine Doses Available

There are currently thousands of vaccine doses available at clinics this week with walk-in hours every day starting Wednesday.

Clinics are held at the Arcata Community Center, located at 321 Dr. Martin Luther King, Jr. Pkwy., with walk-in hours from 6 to 7 p.m. Wednesday through Sunday. These availabilities are for those seeking their first or second dose.

Walk-ins are available on a first-come, first-serve basis, although booking an appointment is the best way to ensure a vaccine is available when you want it. Spanish and English speakers are available at every clinic.

Appointments for Moderna and Pfizer clinics this week can be made at [MyTurn.ca.gov](https://myturn.ca.gov). When prompted to "Enter your address or ZIP code," county residents should enter only "Humboldt County" on the "Let's Find an Appointment" page of the My Turn website, the third page of the appointment scheduler. This means residents will input "Humboldt County" in two different places.

All county residents age 16 and older can register, but 16- and 17-year-olds should sign up only for the Pfizer vaccine. Minors must have proof of age and be accompanied by a parent or guardian.

The following clinics and vaccines are available by appointment and for walk-ins:

- Wednesday — Moderna (18 and older)
- Thursday — Pfizer (16 and older)
- Friday — Moderna (18 and older)
- Saturday — Pfizer (16 and older)
- Sunday — Moderna and Pfizer (16 and older)

Ten New Cases Reported Today

Ten new cases of COVID-19 were reported in Humboldt County today, bringing the total number of county residents who have tested positive for the virus to 3,631.

Humboldt Remains in the 'Orange' Tier

Today the California Department of Public Health announced that Humboldt County will remain in the "Orange" or Moderate tier with an adjusted case rate of 4.6 and a positivity rate of 2.3%.

To move into the "Yellow" or Minimal tier, a county must have an adjusted case rate of less than 2 per 100,000 and have less than 2% positivity rate for two consecutive weeks.
