1 Death, 29 New Cases Reported Since Friday

A Humboldt County resident in their 50s has died with COVID-19, marking the county's 46th death. Humboldt County Public Health and emergency response staff extend their sympathies to the person's family, friends and care providers.

Twenty-nine new cases have been confirmed since the most recent report on Friday. One previously reported case was removed from the local count after it was determined to be from another jurisdiction, and one antigen-positive case has now been reclassified as a PCR. The total number of county residents who have tested positive now stands at 4,382.

The Humboldt County Data Dashboard has been updated to reflect the latest information. This includes updates to the ZIP code section and the removal of one previously reported hospitalization, which has been determined to be unrelated to COVID-19.
