news release

July 29, 2021

35 New Cases Reported Today

Thirty-five new cases of COVID-19 have been reported in Humboldt County today, bringing the total number of county residents who have tested positive for the virus to 5,045.

To limit the spread of the virus in the community, unvaccinated residents over the age of two are mandated by state health order to wear facial coverings in indoor public settings. Federal, state and local health officials also recommend indoor public masking regardless of vaccination status.

Consequently, many local businesses and organizations are requiring masks before entry. Masking signage and other COVID-19 resources for businesses are located on the "Guidance for Industry and Events" page of the Humboldt County website at <https://humboldt.gov/2911/Guidance-for-Industry-and-Events>.

Public Health officials continue to urge local residents to get fully vaccinated to protect against severe illness and death from COVID-19. Full vaccination is achieved two weeks after the second dose of the two-dose series of Pfizer or Moderna or one dose of the Johnson & Johnson vaccine. For more information about the vaccine and its availability, contact the Joint Information Center at 707-441-5000.

Vaccines are available at Public Health vaccination clinics and most local pharmacies. Walk-ins are welcome at all Public Health clinics, or sign up in advance at [MyTurn.ca.gov](https://myturn.ca.gov). See the clinic schedule for the next seven days below.

Eureka – Thursday, July 29, from 5 to 8 p.m.
