Subject: Electronic Billboards

Dear Ms. Hayes: Please send/give this message to each of the County Supervisors. Thank you.

Dear Supervisors: I understand there is a talk of installing “electronic billboards” in the county. Please elicit public comment on this before you even consider taking action. As for me, I am opposed to allowing any electronic billboards in this county. If you would like to pursue improving Humboldt County, I urge you to consider restricting or removing billboards that are placed in scenic areas next to Highway 101. I know this is a contentious issue, but our scenery is a major factor in attracting visitors and businesses to the area. Anything you can do to improve the scenic qualities of our area will go a long way in furthering our quality of life and economic development.

Sincerely, Ernie DeGraff, Fortuna, CA
